Adobe XD

Tools & Platforms: GitHub, VS

Code, Pictory.AI

Hobbies

Learn new tech based daily

Learn how to code new
language everyday

BIRUK LEMMA

Website Developer and UI/UX Designer

Profile

Computer Science student skilled in **web development, AI, and UI/UX design**. Proficient in **frontend & backend development** (HTML, CSS, JavaScript, PHP, MySQL).

Quick learner and problem solver seeking an internship to gain hands-on experience.

Work experience

Designed and developed **responsive** and **interactive** websites using **HTML, CSS, and JavaScript**.

Built the **frontend** for an **Ethiopian Cultural Clothes** website, ensuring a visually appealing layout and seamless user experience.

Implemented **modern UI/UX principles**, focusing on accessibility and mobile-friendly design.

Integrated **PHP & MySQL** for backend functionality, allowing dynamic content updates.

Used **Git and GitHub** for version control and collaborative development.

Optimized website performance by applying **best coding practices** and reducing page load times.

Education

Jimma University, Ethiopia

Bachelor of Science in Computer Science

Developed a strong foundation in **software development, algorithms, databases, and artificial intelligence**.

Worked on various academic and personal projects related to **web development, backend development, and UX/UI design**.

Gained hands-on experience with **PHP & MySQL (XAMPP)** for **backend development**, and **HTML, CSS, and JavaScript** for **frontend**.
